We provide guidance and a vision to transform an idea into a business

At AZ, we help you materialize your ideas, by providing necessary legal advice to ensure consolidation and successful entry into the market

Supporting entrepreneurs using a flexible and personalized service is something that characterizes and always motivates us.

We are involved in all processes related to bringing a business idea to life, with the support of specialists in legal and regulatory matters. Entrepreneurs create job opportunities and development for the country. In this we see the importance of making ideas work with the right advice.

We know that each business idea needs guidance, drive and vision, and we are present in supporting them for a successful introduction into the market. We provide tools through mentoring and coaching that allows entrepreneurs to visualize the context and make solid decisions.

AZ lawyers from different areas (Corporate, Intellectual Property, Litigation, and Regulatory) take part in each stage to realize business ideas, helping to discover

the potential for growth, innovation, and sustainability of each project, and increasing the possibilities of obtaining financing from venture capitals or angel investors.

Thanks to our experience, we can deliver specialized advice in various industries such as ITCs, biotechnology, education, energy, natural resources, and telecommunications, among others.
